Dear Parents,

Our school has arranged a one-year school leaver course this school year, which aims to train students who have completed the Senior Secondary Adapted Curriculum to transit into adult life, so as to improve their independent living, social interaction, work employment, management of leisure time and social life, and other abilities to help them prepare for the next stage of life.

In order to enhance students' life experience and enable them to practice what they have learned, our school will provide students with a variety of learning activities during classroom hours to train students' abilities of independence, autonomy and self-determination, so that they can integrate into the community confidently.
